MYOB EXO Fixed Assets Module

MYOB EXO Fixed Assets is a powerful module that helps control the assets you own by posting real time information to your General Ledger for maximum management visibility.

EXO Fixed Assets integrates fully with MYOB EXO Finance and has a number of key features and benefits that put you in control of your larger, more complex business.

EXO BUSINESS FACTSHEET

Account for your most valuable assets

If your business needs to track fixed assets such as vehicles, machinery, hardware or office equipment for accounting purposes, you need EXO Fixed Assets. It fully integrates with your General Ledger and provides tools to manage all your assets, including:

- Purchase
- Location and Tracking
- Maintenance
- Depreciation
- Disposal
- Asset revaluation
- Reporting.

Location & tracking

Tracking assets is important for every business, regardless of size. EXO Fixed Assets allows you to quickly check the location of an asset, who has it, when it's due for return and when it's scheduled for maintenance. And because it integrates with EXO Finance, your asset information is always up to date to the latest costing or service date – at any time.

Asset grouping

With EXO Fixed Assets you can use powerful hierarchical functionality to group assets by type and function. It also gives you the flexibility to assign default depreciation rates, depreciation codes and asset codes to a specific profit and loss statement on a monthly basis. This is ideal if your assets are spread nationally across numerous branches or offices.

Accurately calculate taxes based on depreciation

Use EXO Fixed Assets to track book and tax values up to seven years. You can also save time by calculating and posting depreciation schedules directly to your General Ledger for more detailed reporting – a must for any medium sized business.
